

Class of 1971 Coming Home King Nominee: **Greg Perrin**

I had the privilege of attending all twelve grades in the Hamlin school system, then graduated from the University of Texas in Austin with a BBA in Accounting. My wife, Kelly, and I have two accomplished daughters. Emily is a mechanical engineer residing in Colorado, and Ella will be attending the University of Arkansas in the fall of this year. I am the general manager of Reeves Groundwater Conservation District. During the week, I work in my office in Pecos, Texas while living in Balmorhea. On weekends, you will find me driving home to Dripping Springs.

I have been fortunate to be able to maintain many lifelong friends from Hamlin. We often reminisce about the wonderful times we enjoyed growing up there. It never gets old sharing with someone, "I am from Hamlin." This generally prompts them to ask, "So, you're a Pied Piper?" My quick and proud response is, "Yes, I am!"
